

**ORIGIN'**

# COMPACT SKYLIGHT INTEGRATION KIT

## THE ADVANTAGES

### Easy to install:

reduced installation time, a perfect seal between the kit and the roofing

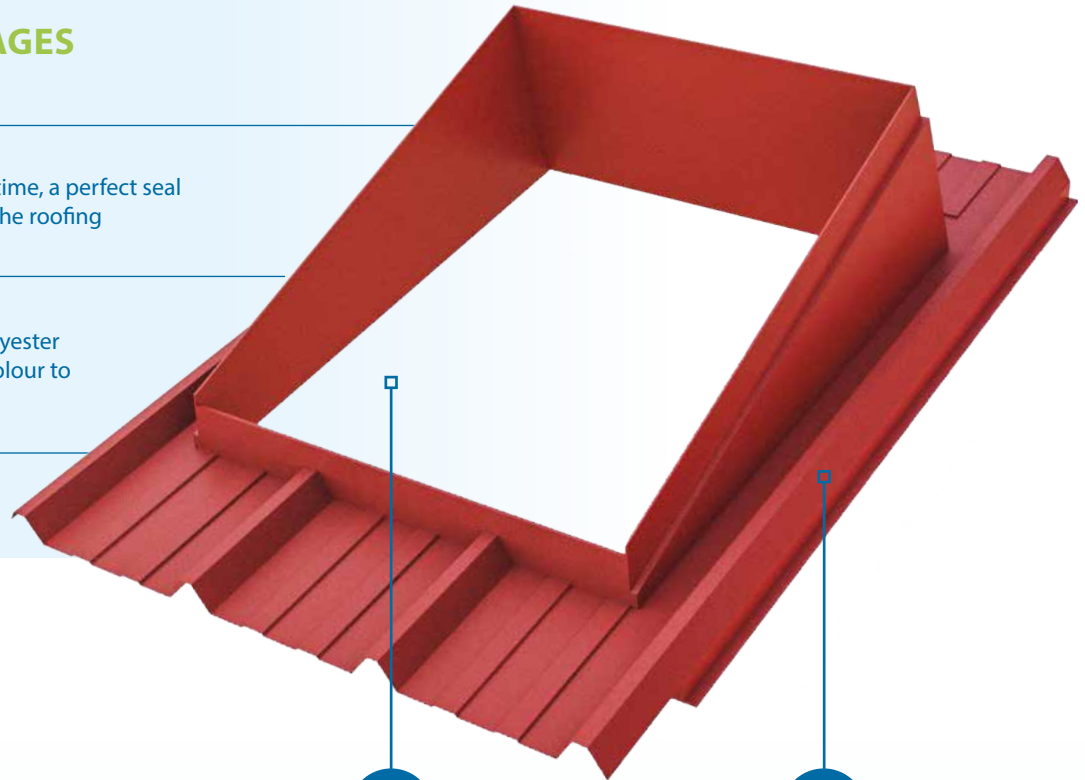

### Blends in easily:

discreet, compact polyester base, choice of RAL colour to match the roof

### Insulated kit

SKYLIGHT

KERB

• Polyester base with insulated kerb

The compact SKYDÔME® skylight integration kit (IFDT) is designed to be fitted with a skylight (central rotation only) to adapt it to a sheeted roof or sandwich panel. This kit is composed of a polyester base with insulated kerb for optimum integration of a skylight, providing a discreet, aesthetic appearance.
